

LOUBET SUCCEEDS FAURE.

Election of a President in France is followed by tumult in Paris.

Paris, Feb. 20.—The national assembly met at Versailles on Saturday and elected M. Loubet president of the French republic. The vote stood: Loubet 483, Mellie 279, scattering 50.

During the rioting Saturday night over the election of M. Loubet 46 persons were injured, including 14 policemen. One journalist received a blow on the head with a loaded stick and was so badly injured that he was removed to a hospital, where he now lies in a serious condition. Two hundred and fifty arrests were made and 142 of those taken into custody are still at the station houses, being held on charges of carrying concealed weapons.

The anti-revisionist papers accuse Loubet of being a defender of Dreyfus and express dissatisfaction with the result of the election, while the revisionist organs are surprised that the election of a man who never expressed an opinion regarding the Dreyfus case is not better received.

Toward 7 o'clock last evening demonstrations occurred in front of the office of Sebastian Faure's anarchist paper, the Journal du Peuple, on the Boulevard Montmartre, for and against Loubet. There was a collision between the rival factions and several persons were injured. The partisans of the newly elected president were worsted in the conflict and moved off to the Cafe Brebant, where they were again attacked and dispersed by their opponents. Many arrests were made. Similar encounters occurred at the office of the Libre Parole and more serious disorders at the Brasserie Maxeville, on the Boulevard Montmartre, where several women were trampled and injured.

A fracas also took place at the Cafe Des Panoramas, where blows were freely exchanged. In both cases the police intervened energetically, arresting many.

At 11 o'clock an enormous crowd demonstrated in favor of M. Zola. Toward midnight crowds broke the windows of the Rothschild's offices in the Rue Lafite, and another group wrecked the offices of the Anti-Juif.

In the course of the demonstrations the Dreyfusards attempted to invade the office of the Petit Journal. Finding the doors barred against them, they smashed the windows. At the Hall of 1,000 Columns 700 Bonapartists met to protest against the election of M. Loubet. Several persons who interrupted the proceedings were ejected. When the meeting broke up there were some slight disorders and several arrests were made.

Minor disturbances took place in various parts of the city, but crowds gradually dispersed and at midnight quietude was almost restored.

According to the Figaro, President Loubet is surprised at the hostility of which he is the object and has said: "No one has a right to say I am a Dreyfusite or an anti-Dreyfusite. I am with a majority of the nation for truth, supported by justice."

To-day M. Dupuy, the premier, will ask the chamber of deputies to vote \$4,400 for the obsequies to M. Faure. This was the amount voted for President Carnot's funeral.

LOST IN THE WILDERNESS.

A Relief Party Attempts to Aid Unfortunate Gold Hunters and Falls.

Seventy Mile River, Alaska, via Seattle, Feb. 20.—Lee Pate, Julius Sternberg and J. A. Ritchie, of Montreal, have returned here from an unsuccessful effort to relieve a party of prospectors at the head of Porcupine river. They were gone over six weeks and suffered semi-starvation, as they took provision for 30 days only. For six days they were practically without food. All their snowshoes lacerated and spare skins were fed to the dogs. Ritchie, who led the relief party, had been a member of the party that was to be rescued. It consisted of Ritchie, D. A. McPhee, of Winnipeg; Ray McFadyen, of Pembroke, Ont.; Philip Billman, of Duluth, and Alex Holmes, of Fresno, Cal.

They went in over the Edmonton route and last fall found themselves at the head waters of the Porcupine river, too late to descend in boats. Without a guide they started across the country to the Yukon, 200 miles away. Holmes froze both feet at the outset. Believing himself unable to continue the journey, he decided to go into camp "on fish branch," on the Upper Porcupine, and trust to getting enough salmon through a hole in the ice to keep off starvation until help should come. Moffatt and Billman remained with Holmes. Ritchie and McPhee with four dogs pushed on for relief. Five days later their food gave out and they were reduced to the necessity of roasting five beaver hides and eating them one after the other. After the end of ten days they reached a cabin at the mouth of Big Sheep creek, where they found Pate and Sternberg.

Pate, Sternberg and Ritchie started in a few days to relieve Holmes and his companions, with the result above stated. They found the camp on "fish branch," where Moffatt had left a note saying they had been unable to replenish their supply of game or fish and, fearing assistance might be delayed in reaching them, had decided to attempt the return trip to La Pierre House, some 200 miles down the Porcupine. Ritchie thinks they were able to make the trip, though the started with so little food that they would have to eat some of their dogs, of which they had three.

Agonillo Leaves Montreal.

Montreal, Feb. 20.—Agonillo and his compatriot Marti left Montreal last evening, bound for New York, en route to London, expecting to sail on Wednesday. Their decision to depart was sudden, for the two latest additions to the Filipino embassy in the United States, De Ninos and Rivera, who arrived here last evening from Chicago, were surprised at meeting Agonillo and Marti on the station platform. Agonillo recognizes that his mission to the United States is ended, and so he will attempt to interest the powers of Europe in the Philippines.

DROVE THEM INLAND.

One of Dewey's Cruisers Bombardees an Insurgent Camp Near Manila.

Manila, Feb. 20.—The California volunteers abandoned Guadalupe church Sunday morning, which has since been set on fire, and retired to San Pedro Macati. The rebels still hold the country in the vicinity of Guadalupe, Pasig and Paterno, despite the efforts of the gunboats to dislodge them from the jungle on both sides of the river. The heat is intense and is increasing daily. Under present conditions it is impossible to provide shade for the troops in certain parts of the line, particularly McArthur's division. King's brigade is also exposed from San Pedro Macati to Culiculi, where it joins Ovenahine's brigade.

In view of the fact that the enemy was concentrating on the American right flank, preparations were made Saturday night to give them a warm reception in the event of attack. The Buffalo's searchlight discovering the rebels unusually active about 10 o'clock in the evening, signalled the flagship for permission to fire upon them, and this being granted, bombarded the enemy's trenches for 20 minutes. The only effect of the fire was apparently to drive the rebels further inland. Beyond a few ineffectual volleys from the trenches, which were returned with interest, the enemy made no demonstration and all is quiet along the rest of the line.

Scouts claim to have seen Pio del Pilar, who commanded the rebels at Paco, with his arm in a sling, directing the troops. Montenegro, the insurgent commander-in-chief, is reported to be personally conducting the movements in front of Gen. King's line at San Pedro Macati. The signal corps is arranging signals with the navy for future operations on the left. With the exception of the port of Iloilo, trade with Philippine ports is still blockaded.

The enemy has apparently realized the hopelessness of attacking the American position and is occupied chiefly by occasional sharpshootings from the jungle. Fortunately their ignorance of the use of sights muzzles the effect of their guerrilla tactics. The retirement of Gen. King's advance posts upon San Pedro Macati has evidently been construed by the rebels as a sign of weakness, as they pressed forward along both sides of the river, persistently harassing the occupants of the town. Last night the rebels poured volley after volley into San Pedro Macati from the bushes on the adjacent ridge, but fortunately without effect. Gen. King's headquarters in the center of the town was the target for scores of bullets. The rebels are using smokeless powder and it is difficult to locate individual marksmen.

WERE COLD IN DEATH.

Four Corpses are Found in a Philadelphia Residence—All Suffocated by Escaping Gas.

Philadelphia, Feb. 20.—Mrs. Charles Fahrenkamp, aged 33 years, her two children, Florence and William, aged respectively 10 and 9 years, and an unknown woman aged about 35 years, were found dead Sunday in a room in Mrs. Fahrenkamp's home, 1416 North Fifty-second street. The gas was turned on and life had apparently been extinct for several days. Scattered about the first floor were remnants of cigars and cigarettes and empty beer and whisky bottles. The bodies were found by a next door neighbor who had forced an entrance to the house. Mrs. Fahrenkamp was lying on the floor and her daughter near by. The unknown woman and the boy were in bed.

On Friday morning Mrs. Wilson, living next door, was asked by Florence to assist her in raising her mother from the floor, where the child said she was sleeping. Mrs. Wilson told her she was unable to do so and suggested that the girl cover her mother and allow her to continue sleeping. The two women and the boy, it is believed, were then dead and from the position of the girl, who occupied another room, it is thought she was overcome by the gas while trying to lift her mother. Mrs. Fahrenkamp's husband, who is a traveling salesman, left home about a week ago on business for his firm.

A PERILOUS JOURNEY.

Lieut. Castner and Two Companions Reach Dawson City After a Series of Exciting Adventures.

Seattle, Wash., Feb. 20.—Advises from Dawson say that Lieut. Castner, of the Fourth United States infantry, who started almost a year ago from the southern coast of Alaska to explore the interior and find, if possible, an all-American trail to the Yukon, has arrived there. Finding the trail they had believed to exist impassable, Lieut. Castner and two companions started to reach civilization. They put their provisions, guns, etc., on a raft and set it afloat on the Tanana river. The raft was wrecked the second day and all the provisions, rifles and axes lost. All that was saved was a coil of rope. With the rope another raft was built and for six days the three men floated down the river, living on berries and raw apples. They were without shoes or moccasins, their feet being covered by canvas tied with strings.

Just as hope was almost gone the party drifted into an encampment of Tanana Indians. Here they were hospitably received and fed, and after resting were guided to a camp of white men 100 miles up the stream, where the party rested until a boat could carry them to the Yukon.

Discovered Gigantic Frauds.

Havana, Feb. 20.—Enormous frauds in the water distribution in Havana have been discovered by the commission appointed to inquire into the finances of the city. It appears that one-fifth of the householders in Havana have been stealing water with the connivance of the alcaide and the mayors of 39 wards, who are also water inspectors in their respective districts, the city losing between \$60,000 and \$80,000 a year, a percentage of this amount going into the pockets of the alcaide. The frauds have been perpetrated for years back.

Our Policy of Territorial Expansion.

Extreme annexationists are advocating the addition of Canada to this country, and think it can be accomplished in a peaceful manner without exciting a quarrel with England. Such grave questions call for the wisest statesmanship, just as dyspepsia, constipation, liver and kidney diseases and malaria call for a thoroughly reliable remedy like Hostetter's Stomach Bitters. No experimenting should be done with untried medicines when an old established preparation is to be had.

Obstacles.

"Ha, ha!" laughed Desdemona, derisively. "Do your worst!"

For, it being a one-night stand, the pillow borrowed from the hotel certainly wasn't large enough to smother anybody.

"Think not to escape me, wretched woman!" cried Othello, deftly telling her with a chunk of cord wood.

MISSOURI'S WAR GOVERNOR

Restored to Health By Pe-ru-na.

A LETTER FROM THE AUDITOR OF THE INTERIOR.

GOV. T. C. FLETCHER.

Hon. Thomas C. Fletcher, the noted war Governor of the State of Missouri, is a great friend of Pe-ru-na. He writes: The Pe-ru-na Drug Mfg Co., Columbus, Ohio:

Gentlemen—For years I have been afflicted with chronic catarrh, which has gone through my whole system, and no one knows the torture and misery I have passed through. My doctor has prescribed various remedies, and I have never found any relief until I was persuaded by a friend to use Dr. Hartman's Pe-ru-na. After the use of one bottle I feel like a new man. It also cured me of a dropping I had in my throat, and built my system up generally. To those who are suffering with catarrh I take pleasure in recommending your great medicine. Very respectfully, Thomas C. Fletcher.

Everything that affects the welfare of the people is a legitimate subject of comment to the real statesman. The statesman is not a narrow man. It is the politician who is narrow. The true statesman looks out on the world as it is, and seeks, as far as is in his power, to remedy evils and encourage the good.

HON. WM. YOUNGBLOOD.

Treasury Department, Office of Auditor for Interior, Washington, D. C., Dec 10, 1898. The Pe-ru-na Drug Mfg Co., Columbus, Ohio:

Gentlemen—I've often heard of your great medicine and have persuaded my wife, who has been much of a sufferer from catarrh, to try Pe-ru-na, and after using one bottle she has wonderfully improved. It has proved all you have claimed for it, and I take pleasure in recommending it to anyone who is afflicted with catarrh. Yours, Wm. Youngblood, Auditor for the Interior. Catarrh in its various forms is rapidly becoming a national curse. An undoubted remedy has been discovered by Dr. Hartman. This remedy has been thoroughly tested during the past forty years. Prominent men have come to know of its virtues and are making public utterances on the subject. To save the country we must save the people. To save the people we must protect them from disease. The disease that is at once the most prevalent and stubborn of cure is catarrh.
